

HOME EMERGENCY INSURANCE

Introduction

Our Home Emergency insurance provides you with an urgent response should you be faced with an emergency at your home arising from a number of potentially disastrous events that require assistance from a reliable and reputable contractor. We have arranged links with tradesmen all over the UK so that your emergency can be assessed and a suitable response put in hand with minimal delay.

In view of the difficulties in providing an emergency service to remote islands, this policy is only available to homes on the mainland of Great Britain and Northern Ireland and the Isle of Wight.

This document includes a general summary of the insurance provided by our Home Emergency policy. For precise details of cover, including the conditions and exclusions that apply, the policy document should be referred to. A copy will be supplied upon request.

The policy provides emergency cover only and complements, not replaces, suitable household buildings and contents insurance. Whilst we will arrange for necessary work to be undertaken following an emergency at your residence, it may be necessary to carry out a more permanent repair or make good damage caused by the incident (eg redecorate and replace carpets following water ingress) and a household policy should cover you for the cost of such work.

Our policies run for a period of 12 months. Prior to expiry, we will contact your insurance intermediary regarding continuation of the insurance for a further 12 month period.
